

READY-MADE BUILD · LINEAGE 2 ESSENCE

Celestial Destiny

A full implementation of the latest protocol. Not just words: every mechanic works.

Server + client

Telegram bot

Ready to launch

Everything works. Not just words.

The build is brought to a “plug in and launch” state

3000+

bug reports handled over
the lifetime of our
projects

100%

of classes and skills fully
implemented

1×1 · 3×3

Olympiad in all formats,
3-round Olympiad
support on main

Stars

payments via Telegram
Stars through the bot

The server has passed load and error testing. Every mechanic works: if something is off, we will fix it.

Full protocol implementation

Not just words: every mechanic works

1 Skills and classes

All classes work 100%. Dagger weak-point strikes, Hardened Body, stat transfer to clones of the Arbalester, Assassin and Divine Templar.

2 Bosses and epics

All boss and epic boss mechanics work. When an epic spawns, a chat notification with a teleport point arrives ("Share Location").

3 Locations

The Tree in the Land of Shadows, the columns at the Aden cemetery, monster spawns at chaotic bosses and other location mechanics.

4 PvP content

New server battle mechanic. Olympiad 1v1, 3v3 and 1v1 best of 3 rounds. Castle sieges (point system) and the world siege of Aden.

5 Items and progression

All current items work. Agathions, Talismans and collections are implemented, each with its combat power defined. Guardians.

6 Class change

Class change with skill extraction and books for the extracted skills. Any skill can be learned with a coupon, including 4★ and master.

Telegram bot: the server in your pocket

Donations and character management without logging into the game

Payment via Telegram Stars

Payments

Pay for donation offers with Telegram Stars

Notifications

Death, player attacks, sieges and the Olympiad

Character stats

Adena, L-Coins, Spirit Ore, XP and level

Teleport

To saved locations right from the bot

Resurrection

With full (100%) XP recovery

Auto-hunt

Turn it on and off from the bot

Real-time class balance

Tuning right on the running server

- Flexible tuning of base stats: attack, defense, critical power
- Separate multipliers: AOE damage, basic attack damage, skill damage, final multiplier
- Defense against skills, physical and magic attacks, auto-attacks
- Changes are easy and need no server restart

Interface: skill panels and auto-hunt

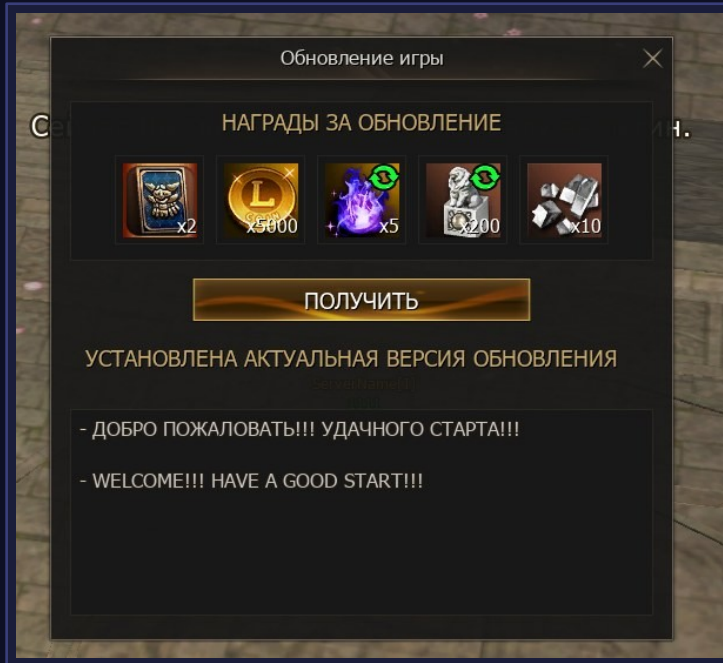

Panels, profiles and the radial auto-hunt menu

- 4 skill panels + an extra panel
- Priority skills panel
- Panel switching and panel profiles
- Auto HP and auto CP
- Improved auto-hunt with a radial settings menu

Player comfort from the very first minute

Client update rewards, a feed of obtained items, opening packages ×100 and grade highlighting. Regular items go to the bottom window, valuable ones to “Trophies”.

Game update rewards

List of obtained items

Opening packages ×100, “Trophies” window

Extended costume system

Cloaks, hats, symbols and an expanded costume set

Collections

Collection switchable to a mini window, time-limited collections and purchasing

Seasonal collections

Buying collections for in-game currency

Combat power is defined for Agathions, Talismans and collections: players see the value of every element.

Events and special hunting zones

A pointer system helps newcomers find their way in the game

Pointers for newcomers

Special hunting zones: shared and timed

Hunting zones with tabs by type

Combat power (GS) everywhere

- Combat power ranking
- Extended GS system: the value is shown on items, dyes, elemental spirits, dolls and collections
- Extended stat bonuses

7899

Combat power ranking and a breakdown by source

Inventory and character info

Inventory search, a resizable window, viewing online players

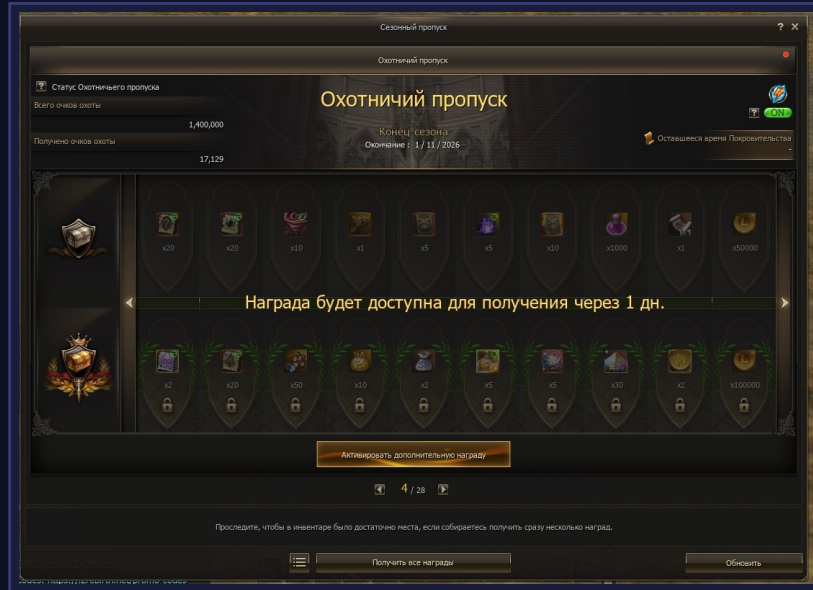

Inventory with search

Character info

The inventory window can be shrunk and enlarged, and the online player list is now more informative.

Pass, promo codes, mail

Season pass: one page per day

Promo codes with easy reward claiming

Mail with a “Claim all” button

Economy and donation shop

Dual-currency world trade: buying and selling

Listing your own goods

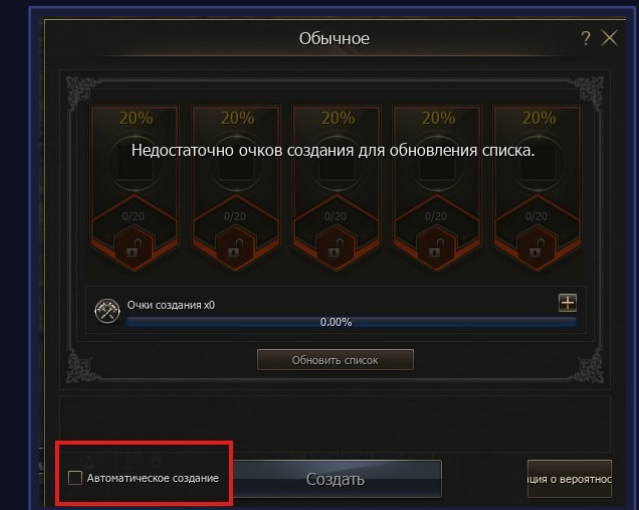

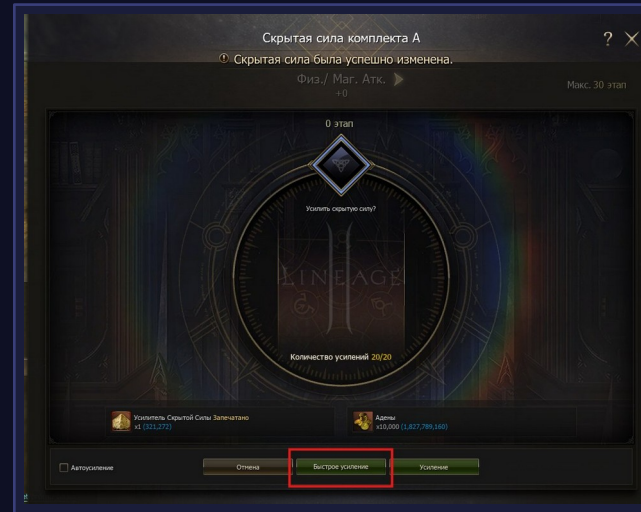

Donation shop: offer items, stock left, cooldown

The donation shop is fully implemented server-side and requires no changes to the game client.

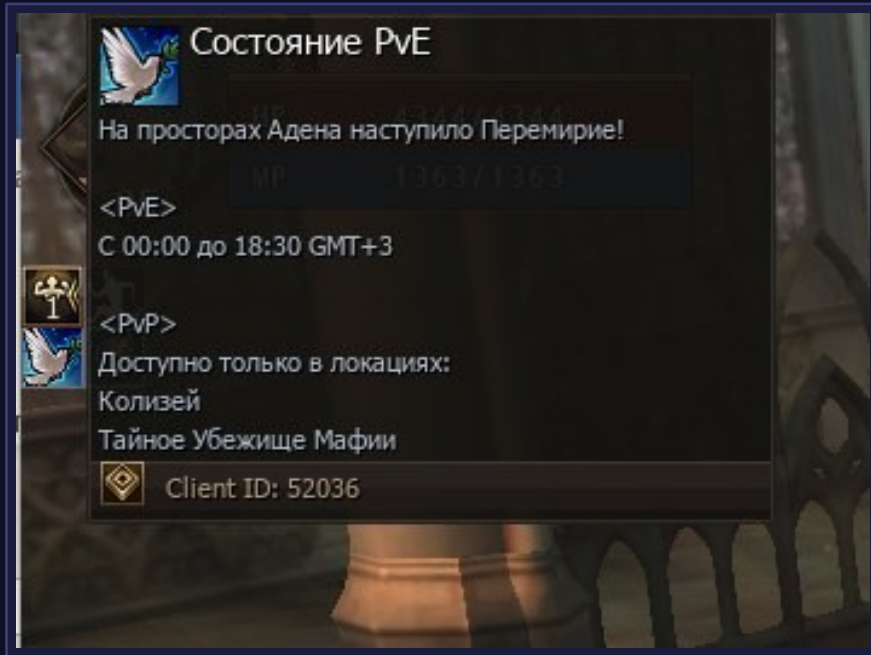

Enchanting, guarantees and crafting

- Fast Hidden Power upgrade: 20 times in 1 click
- Guarantee system and package enchanting
- Extended mass item enchanting
- Automatic random crafting

PvE/PvP mode and drops

PvE from 00:00 to 18:30, PvP turns on at 18:30 (as on special servers)

Mode change announcement

Convenient drop viewer

Rewards by level, chances and amounts

Monster drops depend on level, and the reward list of any monster can be viewed right in the game.

Unique gameplay

Revelation skills, patterns and lucky chests

Revelation skills: up to 2 per character, the choice can be changed

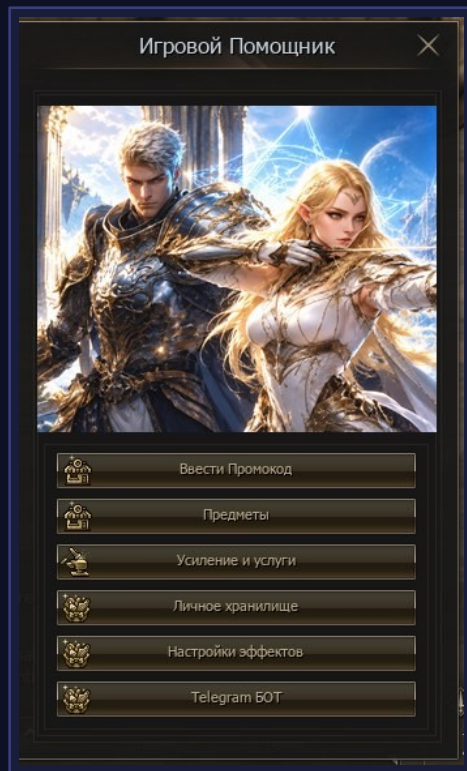

Switchable patterns (dyes)

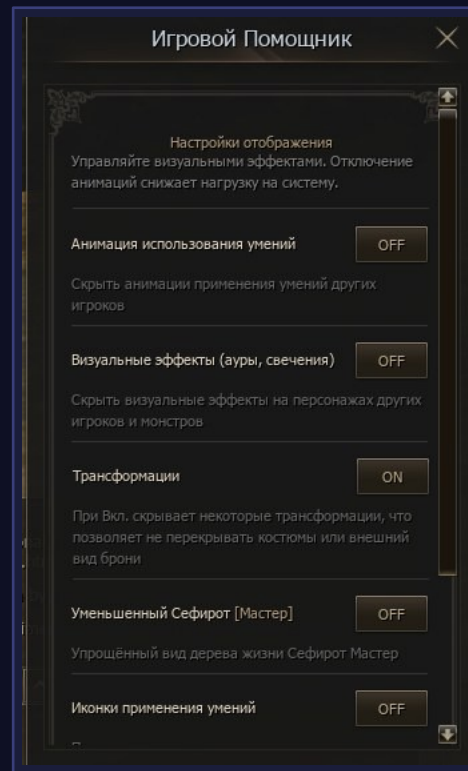

Chests on the map: 60% reward, 40% the chest kills you

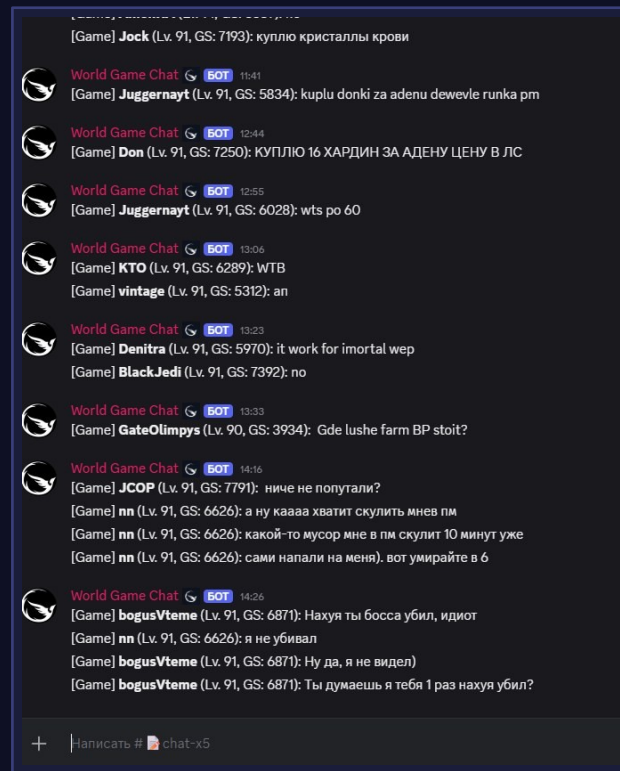

Assistant, settings and Discord

Game assistant

Settings for low-end PCs

Game chat ↔ Discord

- Extended game assistant
- Personal settings for low-end computers or extended functionality
- Two-way bridge: game chat to Discord and Discord messages to the game

And many more useful things

The list could go on forever

Skill usage shown above the character's head

System messages window

Tactical signs and auto-hunt buttons

Switching to offline farming for remote access

Inventory viewer

Chat relay to Discord

Notification that the game needs updating

Extended online player viewer

Full Guardians implementation

Item grade highlighting

Opening packages ×100

Reward chests on the map

Free lifetime support

Everything included in the build is maintained at no extra cost

Free forever

Support is not limited in time and requires no monthly payment.

Official content

All official content included in the build is supported.

Custom content

All custom content already included in the build is supported.

Additional custom work is discussed separately

The server is fully ready to go

All known bugs are fixed, over 3000 bug reports handled. If something does not work, we will fix it.
